

HISTORIC WINDSOR LEFT IN ASHES

OLD NOVA SCOTIA TOWN DESTROYED BY FIRE.

Three Thousand Homeless—Fire Rages For Several Hours and Consumes Four Thousand Residences and Public Buildings—Torch Applied by a Vindictive Liquor Seller

Halifax, N. S., Oct. 18.—The town of Windsor was firewreathed Sunday, and 3,000 people are homeless. The fire started at 2 o'clock in the morning, and at 9 o'clock seven-eighths of the town had been entirely wiped out. The direct financial loss is \$1,500,000, with about \$500,000 insurance. Two lives were lost, Michael Whalen and his wife, an aged couple, and two children of Walter Mosher, a boy of 12 and a girl of 9, were badly burned. Two children of Jesse Smith are missing, but will likely turn up all right. Several others are reported missing.

William Cleveland, a telephone operator, was dangerously hurt and several others more or less injured.

Windsor is a historic town in the land of Evangeline, about fifty miles from Halifax, and is famous as a seat of learning, containing a ladies' seminary and Kings' College, one of the oldest universities in America. It was one of the wealthiest towns for its size in Canada, and contained about 4,000 inhabitants, 3,000 of whom are now homeless.

George Fletcher, a colored man, kept a billiard room and low barroom combined. Saturday a paper was served on him for selling liquor contrary to the provisions of the Scott act. He celebrated the circumstance by getting gloriously drunk and setting fire to his place. Then he rushed from his div. The flames followed him out of the door and spread rapidly, and soon the town was ablaze. A hurricane from the northwest was blowing, and the rapidity with which the fire spread was dumfounding. Practically nothing was saved. A few people got some of their possessions out of their houses, only to see them consumed in the street.

During the seven hours that the fire raged every wholesale and retail store and every shop—in fact, every place of business in the whole town—was swept out of existence, with all they contained. Five of the six hotels were burned, the three banks, the postoffice and custom house, the courthouse and jail (the prisoners being liberated by the jailer), the electric-light station, telegraph and telephone buildings, every foundry, mill and factory, five of the six churches—Methodist, Baptist, Presbyterian, Roman Catholic and Salvation army, the Episcopal only escaping—all the public school buildings and 400 residences and dwellings.

All that remains of what was a beautiful and bustling town is about 150 dwellings, a hotel, a church, the railway station and the university buildings, which are outside of the town proper. The area burned over is about a square mile. The fire took a peculiar course, the buildings left being small groups here and there, the flames destroying everything about them, yet leaving them unscathed. The fire burned to the banks of the River Avon, and a number of persons who removed their things to boats on the river eventually lost them through burning cinders being carried thither.

Powder and dynamite were used to blow up buildings in the hope of staying the progress of destruction, but the efforts were fruitless, and the fire swept everything before it. The town has no steam fire engines, though there is an excellent water system, but the local firemen could do but little, all their hose being burned in the streets while in use.

A cold wave struck in, and the weather is the chilliest ever known here at this time of year. The relief expedition from Halifax witnessed a pitiable sight. Half a mile from where Windsor stood, in a large open field, were groups of half-clad children and women huddled around a few chairs or other insignificant household articles, all that had been rescued of their possessions. Most of the 3,000 homeless, however, had been driven to the surrounding villages of Wolfville, Falmouth, Brooklyn, St. Croix and Ellershouse and were made comfortable for the night.

BIG BLAZE IN NEW YORK.

Property Valued at \$300,000 Destroyed—Fire in Iowa Hill, Cal.

New York, Oct. 18.—A \$300,000 fire in the seven-story factory building at 279 and 281 Spring street taxed the energies of the fire department Sunday afternoon, and twenty engines and a large force of men were called out. The five upper floors of the building were occupied by the Bradley Courier company, manufacturers of doors, sashes, frames and mantels of the most expensive sort. This firm had among its stock the driest of woods and the most inflammable oils and varnishes. The firemen fought as best they could, but could not save the factory.

The building was erected by the Trinity church corporation at a cost of \$100,000. Nothing of it now remains but the blackened walls, and they will have to be rebuilt.

California Town Damaged.
Iowa Hill, Cal., Oct. 18.—Iowa Hill,

a mining town situated in the mountains of Placer county, was visited by a most damaging fire early Sunday morning. It started in the Central hotel and within a few minutes the hotel was a mass of flames and the walls falling in.

LOST WITH 150 LIVES.

Disaster to the Ship Triton Off the Coast of Cuba.

Havana, Oct. 18.—The gunboat Maria Christina, which left this port Saturday for the scene of the Triton wreck, has returned, accompanied by the tugboat Susie, which went with her. The two vessels arrived here at 1 o'clock Sunday afternoon, the gunboat having on board nineteen and the tugboat twenty-three of the members of the lost ship's company, of whom thirteen are civilians and soldiers. These are all who were saved of a total list of 200 passengers and crew.

The coasting steamer Triton, from Havana to Bahia Honda, province of Pinar del Rio, went upon a rock Saturday morning, between Dominica and Mariel, on the north coast of that province. Her cargo shifted and fifteen minutes later she sunk in 120 fathoms of water.

A scene of terrible confusion and panic ensued as soon as the passengers realized the meaning of the crash. In a wild struggle they rushed for the boats. The first boat that was lowered capsized immediately and all of its occupants were drowned in the whirling waters. The next was struck by an enormous wave and turned over, drowning twenty, but the frail craft righted again, and eight who had been thrown out regained it.

Some were good swimmers and kept themselves afloat for hours; others floated about on planks. Four soldiers on planks whom the strong currents carried east of Havana, opposite Morro castle, were saved by a pilot boat going toward Cardenas. They declare that there were many others near them on planks, but when the morning came all these had disappeared. Some of them probably became food for sharks.

Those who were rescued tell heart-rending stories of the scenes during the terrible quarter of an hour before the Triton sunk. An army captain, his wife and daughter went down together, locked in a last embrace. A mother with twins 15 months old drifted helplessly away on the crest of a great wave. All other women and children were drowned.

Just as the Triton was sinking Capt. Ricardo, her commander, committed suicide by shooting himself with his revolver. It is impossible to give the exact number of those who were lost, but it is estimated that they were no fewer than 150. No passenger list has been found.

The forty-two rescued persons suffered severely from the exposure. All of them were more or less bruised and many of them badly wounded.

On board the Triton was \$31,660 in silver to be used for the payment of the Spanish military and naval forces. The Triton, it is stated, was overloaded. She carried a large quantity of groceries and ammunition, and had on board ninety-three rifles for the government troops.

LI HUNG CHANG TO RETIRE.

Tacoma, Wash., Oct. 18.—The latest advices from the East bring the an-

LI HUNG CHANG.

ouncement that Li Hung Chang's health has failed almost totally. It is reported he has despaired of the task of reforming China and is about to retire permanently from public life.

Death in a Train Wreck.

Mexico, Mo., Oct. 18.—A fatal freight wreck occurred on the Chicago and Alton about 1 o'clock Sunday morning, just east of this city. An extra going west and train No. 73 of the second division had a head-end collision. A negro from Ladonia, Mo., was killed. Fred Mead, the engineer, and Charles Davis, fireman of the east-bound, and Lew Gray, engineer, and J. C. Wheeler, fireman of the west-bound, were scratched and bruised slightly. They saved their lives by jumping. Fourteen cars were derailed, and two engines demolished. Considerable grain was spilled. The estimated loss is about \$20,000.

Hammers a Suicide.

Elgin, Ill., Oct. 18.—The body of Albert Hammers, the official of the Modern Woodmen who disappeared three weeks ago, and for whom all the Woodmen's camps had been searching, was found Sunday in an abandoned mill a few miles north of here. He had taken his life.

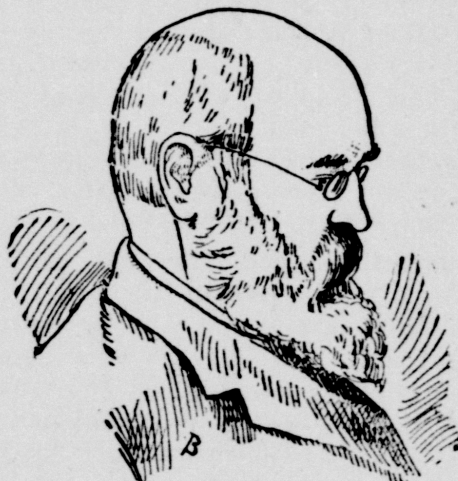

CHAS. A. DANA DEAD FULL OF HONORS

PEACEFUL ENDING OF "DEAN OF AMERICAN JOURNALISM."

Honorable Career Closed—Great New York Journalist, After a Long Battle for Life Succumbs to Exhaustion—Gossip as to His Probable Successor.

New York, Oct. 18.—Charles A. Dana, editor of the New York Sun, died at his home in Glencove, Long Island, at 1:20 o'clock Sunday afternoon.

Death had been expected for several hours, and his family and physicians were at his bedside when the end came.

CHARLES A. DANA.

His condition had been such for several months that the members of the family had kept themselves in constant readiness to go to his bedside at any moment.

Saturday morning he had a relapse, and it was apparent that recovery was impossible. Several times, however, he rallied, but toward night began to sink. During the night there were feeble rallies, but they did not last long. Sunday morning it was seen that the end was but a few hours off, and his attendants remained almost constantly at his bedside.

The extreme heat of Friday and Saturday had much to do with hastening death. On Friday Mr. Dana showed signs of distress, and everything possible was done to relieve him. He had been weakened by his long illness, and during the summer was several times thought to be on the verge of a fatal collapse, but each time he rallied. He did not improve much with the coming cooler weather, and his sinking spells became more frequent.

Friday Mr. Dana was able to take only the lightest nourishment, and this condition continued. Paul Dana and his sisters, Mrs. Draper, Mrs. Underhill and Mrs. Branan, were at his home Saturday morning, and were warned to remain there. They were at the bedside when death came.

The cause of Mr. Dana's death was cirrhosis of the liver. June 9 he was at his office apparently strong and healthy. The next day he was taken ill, and he never afterward visited New York. He was 78 years old. Preparations for the burial have not yet been completed.

It is generally stated in newspaper circles that Mr. Dana had nothing to do with the editorship of the Sun for the last six months and had not had any financial interest in the paper for some time. Theodore E. Hitchcock, a Wall street banker, is reported to be the controlling owner and the publisher of the paper. Mr. Dana is supposed to be the next in ownership. It is thus not believed that Mr. Dana's death will have any marked change on the policy of the paper for a time at least.

Forest Fires Cause Loss.

Coudersport, Pa., Oct. 18.—Destructive forest fires are raging in this section. Nelson Run, seven miles from Austin, Pa., in the Goodyear district, was burned Saturday, with a heavy loss in logs and bark. About twenty camps were burned, the occupants having barely time to escape with their stock, leaving all household goods and working outfits behind. There are other fires which, unless checked by rain, will soon cause additional loss.

Durrant Is Breaking Down.

San Francisco, Cal., Oct. 18.—Theodore A. Durrant, the convicted murderer of Minnie Williams and Blanche Lamont, whose fate depends upon the action of the Supreme Court of the United States, is reported to be breaking down. Within the last few days he has betrayed signs of nervousness and irritability. It is the impression of the jail officials that he will collapse completely if the decision of the Supreme Court of the United States should prove adverse to him.

Produce No Results.

Madrid, Oct. 18.—El Imparcial says that the negotiations between the government and the chiefs of the Cuban autonomist party have not produced the expected results. The ministerial organs urge the necessity of "energetic action to crush the rebellion by force of arms." The increase in the issue of bank notes by the Bank of Spain has created a bad impression.

National League Batting Averages.

Chicago, Oct. 18.—President Young of the National League of Baseball Clubs, has issued the official batting averages of the players for the season of 1897. Keeler of Baltimore leads the list. Clarke of Louisville attains second place. Burkett, champion batsman for 1895 and 1896, has fallen to fifth place this year. Hill of Louisville is the weakest batsman in the league, his average for 22 games being just 100.

SALISBURY READY TO STEP ASIDE

RUMORS OF COMING CHANGES IN THE BRITISH CABINET.

Premier is in Ill Health—The Reluctance of the Queen to Lose Her Foremost Adviser Has Delayed His Resignation—Duke of Devonshire May Be His Successor.

London, Oct. 18.—The Daily Chronicle announces that in view of Lord Salisbury's desire to resign the premiership an early reconstruction of the cabinet is probable. According to the Daily Chronicle no serious difference of opinion exists among the ministers on matters of policy, but Lord Salisbury finds his health unequal to the strain and burden of his two offices of premier and foreign minister. So great is his desire for rest that on his recent visit to Beaulieu he did not even take his secretary. Moreover the premier is much concerned about the health of the marchioness of Salisbury, which is far from good.

The queen is reluctant to sanction his resignation, and therefore it may be deferred for a time. In these matters her Majesty exercises her prerogative to a greater extent than is generally known. For instance, her wish became a royal command when Lord Rosebery against his own wish took the foreign-office portfolio in Mr. Gladstone's cabinet. Serious ill health, however, relieves the subject against even such an obligation, and it is probable that Lord Salisbury's resignation will be accepted at no remote period.

The Daily Chronicle, commenting editorially upon the rumor to which it gives currency, says: "We shall regret the departure of so great a personality. Despite his shortcomings as foreign minister, no such interesting man will follow him."

The Daily Chronicle hears that "The omens point to the duke of Devonshire (lord president of the council of ministers), as the next premier," and that the Tories and liberal unionists will become fused into a single party. It thinks that "Under the duke of Devonshire the conservative party would be less progressive than ever," and adds that "It is doubtful whether even Mr. Chamberlain would have any real power to mold the stubborn mind of the duke."

DENOUNCES BALFOUR.

London Editor Declares Theories of Bimetallism Scandalous.

London, Oct. 18.—The Daily News, in an editorial headed "The Bimetallist Conspiracy," says: "We do not know what authority there may be for the statement that the government has agreed to continue the negotiations nor can we see what the United States or any other country has to do with the matter. But there must be an end to the conspiracy of silence in which the government is involved. Our financial credit is far too serious a subject to be bartered with foreigners or handled in the dark."

After severely reproving the chancellor of the exchequer and the governor of the Bank of England for their share in the transactions, the Daily News pointedly demands explanations from Mr. Balfour, the first lord of the treasury, and says: "There are those, including ourselves, who regard it as a public scandal that the first lord of the treasury should be a bimetallist. They argue that foreign critics may justly doubt the sincerity of our monometallism when they see a man at the treasury who would, if he could, destroy the whole of our monetary system."

QUARANTINE IS A FAILURE.

People of New Orleans Do as They Please and Fever Is Spreading.

New Orleans, La., Oct. 18.—While the new cases did not run up rapidly here Sunday the deaths reached five. The agitation against the quarantine regulations of the board of health is encouraging violations of the regulations. There is a considerable sentiment against continuing the quarantine system and the result is that the board of health, having reduced the number of its guards, inmates of houses are slipping out into the street whenever they have a mind to. Whether or not this is having the effect of spreading the fever is a disputed question among the authorities, but the belief is growing that the board will not seek much longer to maintain the quarantine system by which it has hoped to keep down the fever.

To Stop the Drain of Gold.

London, Oct. 18.—Thursday's advance in the bank rate to 3 per cent was not a surprise, since £1,000,000 in gold has been withdrawn within a week, making £5,000,000 since June last. Gold continues in strong demand, but the withdrawal of eagles has been checked by the raising of the price to 76s 1½d per ounce.

Death List Is Growing.

Cincinnati, Ohio, Oct. 18.—Mrs. Kate White of Price, Hill died last night from injuries received in Friday night's theater disaster. This makes three deaths. Mrs. White's arm was broken and a great hole torn in her left side. Mrs. Arch L. Scudder cannot live and Mrs. Hayes and Albert Weiss are very low. All the other injured are recovering.

OVER 4,000 AT COMMUNION AT INDIANAPOLIS.

Indianapolis, Ind., Oct. 18.—The most largely attended communion service ever held by the Christian church in this country was conducted in Tomlinson hall Sunday afternoon, when over 4,000 souls partook of bread and wine. The service was the leading feature of the Sunday program of the Christian conventions. Thirty-two deacons distributed the loaf and the wine. Ten gallons of wine were used. It is claimed that the service was one of the most largely attended communion services in the history of the church.

Over 2,000 people are here to attend the opening of the convention of the Christian foreign-mission convention, in Tomlinson hall today. The annual report of the board of managers will show that the society began the year with \$7,900.08 on hand. From all sources, \$106,222.10 was received—an increase of \$12,354.39 over last year. The expenditures for the year were \$99,195.26. Of the receipts, \$6,800 belong to the annuity fund and will be expended on buildings at once. The permanent fund was increased \$3,950, leaving \$7,677.62 on hand to begin the new year's work with. The permanent fund now amounts to \$15,900. During the year \$8,588.15 was received from bequests. During the year 528 endeavor societies contributed—a gain of 263 over last year. They gave \$3,358.63—a gain over last year of \$1,377.76. The churches gave to the cause during the year \$39,568.28, as against \$39,902.30 the previous year.

The Sunday schools have passed all previous records, both in the number contributing and the amount given. The number of contributing schools is 2,810, as against 2,605 last year. The amount given this year was \$36,027.24, as against \$28,418.78 last year.

Six cities are competing for next year's convention, with the chances favoring Kansas City, Mo.

ANTI-FUSION LAW ANNULLED.

Western States Interested in the Pennsylvania Decision.

Pittsburg, Pa., Oct. 18.—The prompt manner in which the Dauphin county courts declared unconstitutional the anti-fusion law passed by the last legislature caused widespread interest in Illinois and neighboring states which have similar laws. Queries regarding the reasons given by the court are being received by the state officials. In all probability test suits will be entered in other states as a result of the ruling of the Pennsylvania court.

The anti-fusion law was passed in the shape of an amendment to the Baker "blanket" ballot act. Its obvious purpose was to curtail and hamper independent political movements. Lawyers said it was a ridiculous piece of legislation, but the Quay leaders, headed by Gen. Frank Reeder, who was then secretary of the commonwealth, pushed it through. It is stated that Gov. Hastings would not have approved the anti-fusion amendment if it had stood alone.

Nebraska Farmers Happy.

Lincoln, Neb., Oct. 18.—The last seven days have been more important in the development of the agricultural resources of Nebraska than the whole summer. The grain acreage, which was believed to have been curtailed one-third by the extended drought, has been extended to normal and probably a little larger. Showers have fallen almost daily over the state and at no time has it been too wet to break ground. A large quantity of virgin soil is also being turned over preparatory for seeding next year.

More Yellow Fever Cases.

Jackson, Miss., Oct. 18.—The state board of health in its official statement chronicles one new case of yellow fever at Cayuga, that of Armand Anderson. At Clinton there are two new cases, R. D. Miller, who relapsed, and Mrs. R. D. Miller. At Edwards E. K. Noblin died Sunday morning. Three new cases were reported there Sunday. There are six persons seriously ill, two of whom will probably die within the next forty-eight hours.

Manitoba Synod Ratified.

Errie, Pa., Oct. 18.—The twenty-sixth convention of the general council of the Evangelical Lutheran Church of North America ratified the new Manitoba synod, which was organized out of the Canada synod by the advice of the German home missionary board. Further action was also taken on the relation between the general council and the general synod, based upon a report of the general council representatives in the joint committee of conference which has brought about the use of the common service and is now laboring to secure interreciprocal comity in home mission work.

Says \$5,000,000 for the Year.

Denver, Col., Oct. 18.—Mr. H. Bratnaber, the noted mining expert, who is returning to London from Alaska, where he spent several months investigating the gold fields for the Rothschilds, left Denver last night for New York. Mr. Bratnaber, speaking of the prophecy that the Klondike will produce \$50,000,000 within the next year, said: "The district will probably produce \$5,000,000 or \$6,000,000 during the twelve months we are now entering upon." Mr. Bratnaber advises all persons going to Alaska to go in the spring, and says prospectors must not expect too much.

FOND DU LAC FOLKS TALK OF LYNCHING

MURDER OF JOHN BEAMAN MAKES A STIR.

Fierce Fire in Rhinelander Does \$30,000 Damage, The Insurance Being Only \$25,000—Heavy Fire Loss Near Milwaukee—Other Pieces Of State News.

Fond du Lac, Oct. 18.—[Special]—Will Payne who murdered John Beaman yesterday morning was captured early this morning at Calvary by the sheriff. He was locked up with a posse of deputies guarding the jail. Fear is entertained that lynching will be attempted and Governor Scofield has been requested to order the militia here. There is much indignation over the murder.

Costly Fire in Rhinelander

Rhinelander, Oct. 18.—[Special]—Fire destroyed the sawmill of Fall & Giligan this morning, entailing a loss of \$50,000. The mill was fired by tramps.

Large Fire Near Milwaukee

Milwaukee, Oct. 18.—[Special]—Fire destroyed five stores and two dwellings in Silver city, a suburb of this city, this morning. The loss was \$20,000 with small insurance.

May Lynch the Assassin.

Fond du Lac, Wis., Oct. 18.—John Beaman, aged 50, proprietor of the Beaman house, was murdered in the hotel bar at 3:45 o'clock Sunday morning by William Payne, colored, in the presence of several witnesses. Several hundred men are scouring the country for the murderer. Two hundred dollars' reward is offered for Payne's arrest. Great indignation is felt, and the murderer will probably be lynched if caught.

JURY GETS LUETGERT CASE

Chicago, Ill., Oct. 18.—[Special]—States Attorney Deneen closed his address to the Luetgert jury at 2:35. The judges charge followed and the jury will retire at 4. A quick verdict of acquittal is looked for.

MUST PRACTICE ECONOMY.

Cabinet at Washington Discusses Financial Problems.

Washington, Oct. 18.—The cabinet was in session for two hours Friday. Most of the time was devoted to a discussion of the financial operations of the government. This included both receipts and expenditures. The latter were the especial object of consideration, as it is the wish of the administration to keep the expenditures from exceeding the receipts.

The different heads of departments have been engaged for some time upon their estimates, and efforts are being made to have reductions made wherever possible.

In both the war and navy departments there is pressure for larger expenditures for coast defenses, rivers and harbors and for increase of the navy. The recommendations of bureau officers in these departments have been scanned very closely and reductions will be made if found compatible with the public interest. In the other departments there is no urgent demand for increases.

St. Andrew's Men Go Home.

Buffalo, N. Y., Oct. 18.—The first international convention of St. Andrew ended Sunday. Some of the greatest men in the American, Canadian and English houses of bishops, leading churchmen from Chicago, Boston, Philadelphia, New York and even London, and 2,000 young men listened to the addresses. The final service was presided over by President Houghteling of Chicago. The old council of the American Brotherhood was re-elected. Besides the president it includes W. R. Stirling and Joseph R. Barroll of Chicago and Hector Baxter of Minneapolis.

Defeat of Morales Is Denied.

San Francisco, Cal., Oct. 18.—News has been received in this city that the reported defeats of Gen. Morales and Fuentes have no foundation in fact, and that so far from having been driven into Mexico they are still in the province of San Marcos with their army of 17,000 men. Reports have also reached this city of extreme measures taken by Barrios to enforce approval of his continuance in office. He demanded that all mayors of municipalities and officeholders indorse in writing his election as dictator. This the mayor of Quosaltengo refused to do and paid the forfeit of his refusal with his life.

Preparing for Seal Conference.

Ottawa, Ont., Oct. 18.—The Canadian authorities have for some time been preparing for the eventuality of a conference of seal experts at Washington, notwithstanding the success of their protest against Great Britain entering into negotiations with Russia and Japan as parties thereto. Commissioner Maccum, who, with Professor Thompson, the British expert, spent the last two seasons on the Pribiloff Islands, is preparing a mass of evidence on the subject of seal life. It is said here with confidence that the Canadian contention is easily supportable by this evidence.

STUDY PROPORTION
IN ALL AFFAIRSALL THINGS IMPORTANT, BUT
NOT EQUALLY SO.

Rev. Robert C. Denison Speaks from The Text "What is the Straw to the Wheat"—Rev. W. A. Hall Begins His Series of Pacific Parables.

At the Congregational church yesterday morning the pastor, Rev. Robert C. Denison spoke on the text "What is the straw to the wheat, saith the Lord," Jer. 23:38. He said: "There is nothing in the world that is wholly important. The universe, science has discovered, is an exactly balanced machine in which the weight of every grain of sand and speck of dust counts for something. But though all things are of some consequence it does not by any means follow that all things are of equal importance. The blade of grass at the path side under your feet is of some consequence in nature, the landscape would be less complete without but the forest which covers the mountain out of which the ships, the houses, the houses, the bridges are built is of more weight than the grass blade.

So we must get hold of this truth of the proportion of things. We must recognize that some things are great and some things insignificant. I want this morning to follow this principle of the importance of things on into our views and estimates of life.

One place in which it is of importance that we keep clear our view of the respective value of things in our own estimation of our fellow men, for in our judgment of men it is very easy for us to see only what lies on the surface. Some single fault, some one eccentricity appears particularly evident to us and we make the mistake of estimating the man by that single fault and that one fault may be the lowest point in his character. I do not say we are to excuse the fault. But we must know that every one is a child of God, that he is capable of being lifted out of these faulty appearances into the beauty of the soul of God. Now our hope of the salvation of God is not in our perfection, but it lies in this that as he turns from what we are to what in Christ we may be he will say "what is straw to the wheat?"

So to estimates of a man that would reduce him to the level of a single fault, Christianity utters its protest and demands that we look at men from the point of view of immortality and possibility.

There is another view of life which is now most common and that the commercial view. It is right to estimate a man's worth by his wealth, for between wealth and manhood, what is the steam to the wheat?

In their estimates of the church, too many men fail to distinguish between the great and the small. There may be mistaken and weak men in the church, but what the church is standing for is greater than all these, for think, the church is the only organized effort apart from a few denominational colleges, to teach morality and extend the inspiration of religion.

There is one further place in which it is important that we keep the proportion of things—in our religious life. Now we cannot escape from little things, the mistakes, the misunderstandings, must come, but the christian view of life is that which sees to great things, the worthy things of life, and lives in that light, and so what does the text teach us, simply that we should seek character about wealth, love above condemnation, God above all.

THE APPROACHING CHRIST.

Rev. E. H. Pence Addresses His Congregation on the Savior's Nearness.

At the Presbyterian church yesterday morning, Rev. Mr. Pence took for his topic, "The Approaching Christ." He said:

In I Thess. I, 9-10, we have exhibited to us a four-fold Christ, a Christ approaching at every direction. First we have Christ approaching back from the realm of death. Then we see Christ approaching when we first become Christians. Again we see him approaching in the daily life which we live, and lastly we see the approaching Christ who is coming very quickly for each one of us. In the very beginning of time and eternity he began to approach men, and kept coming nearer down through the centuries till the star of Bethlehem shone, and the angel announced to the shepherds that "unto you is born a Saviour which is Christ the Lord," that the approaching Christ had come so near that now he breathes the breath of life. In the personality of Christ, the God-man, we can see just how near God can come to the heart of man. Jesus by his life and words, taught the people the lesson of self-sacrifice, and of how to find peace and rest. The God man came down so near our humanity that men could drive nails through his hands.

Biliousness

Is caused by torpid liver, which prevents digestion and permits food to ferment and putrify in the stomach. They follow dizziness, headache.

Hood's Pills

insomnia, nervousness, and, if not relieved, bilious fever or blood poisoning. Hood's Pills stimulate the stomach, rouse the liver, cure headache, dizziness, constipation, etc. 25 cents. Sold by all druggists. The only Pills to take with Hood's Sarsaparilla.

and Thomas could put his fingers into the print of nails. Sometimes Christ seems to depart, but only so that we might come nearer. By his wounds and death upon the cross, he comes back with new power to enter men's hearts and stir them to repentance. Just as we serve Christ he comes back to us. As we turn to God our doubts and fears are all quenched.

God is coming nearer moment by moment. Dying as we do, as individuals and not as a mass, death has a peculiar significance. We sometimes think, Christ is eighteen centuries away behind, and it seems a long distance away. But have we thought how near he may be ahead? Perhaps twenty-four hours, a week, a year, a decade, two of them. But nearer ahead he is to us all than he is behind. The great question is—are we ready to meet the approaching Christ, who is surely coming for each of us?

At the O. E. meeting the Endeavorers listened to a very interesting and enjoyable report of the Appleton State Convention, given by the president, Miss Cornelia Reddy, who was the society's delegate. Miss Reddy mentioned among the favorite speakers, Treasurer Wm. Shaw and Secretary John Willis Baer, C. L. Hurst of Minneapolis, J. M. Whitehead and Rev. Robert C. Denison of this city.

The evening sermon was by Rev. Walter Johnson of Iron Mountain, Mich., who took his text from the 7th chapter of Romans, and was a very able and practical discourse.

A SERMON ON OPPORTUNITIES.

Rev. W. A. Hall Talks of the Parable of The Talents.

"The Opportunities of Life," with the parable of the talents as a text was the topic discussed by the pastor, Rev. W. A. Hall, at the Court Street E. church to a large congregation yesterday morning. Many practical suggestions were contained in the sermon which was delivered in Mr. Hall's vigorous style. In the evening the first of a series of lectures was given on "Problem of the Pacific."

TRUE LOVE.

True love will never falter at storms of hail or rain, But will buckle on its armor and battle with life again.

So much to win in true love, the victory is so sweet, It would lay its very life down at its loved one's feet.

No cross too large or heavy, no thorn that tears to the heart, Can make true love forgetful to perform its faithful part.

Like Romeo and Juliet, all sufficient for each other, So true love will live undaunted, its fires we cannot smother.

Dreaming ever dreaming of this love that's always new, Not realized by many, rarely by the few, Pines that beat harmoniously in every joy or pain.

With all of life so perfect there is nothing more to gain, Every morning seems a beautiful bud, that in one little hour Blossoms out with odor sweet, into the grandest flower.

Every night, a resting place, for sacred love confessed, Imagination is so weak, no language ever expressed.

Life cannot be all for joy, nor yet be all for pain, The brightest sun shine ever seen, cometh after cloud and rain.

So with true love dark shadows, will now and then creep in, Death will snatch our idols, and we feel the curse of sin.

But these dark spots upon true love, will quickly lighter go on, And hearts will closer cling together, after the purple glow.

Is there anything worth living for, without true love today, Would not our burdens be heavier, should we cast true love away?

WHY THEY OBJECT
TO USE OF WATERKOSHKONONG PETITION ABOUT
JANESVILLE MILLERS.

Property Owners Protest Against the Use of the Lake as a Reservoir to Be Drawn Down at the Low Water Season—Riparian Rights Claimed.

The complaint made by Koshkonong property owners against Janesville millers goes into all the details of the case. It is addressed to Landlord William Taylor and reads:

"We heartily approve of your action in the matter.

We make no objection to the stage of water in Koshkonong Lake, which long usage has fixed at the crest of the present dam at Indian Ford, but we most earnestly protest against the practice of drawing down the water in the lake, during the low water season of each year for the following reasons:

1st. It creates a wide strip of muddy, low ground between the proper lake shore and the water edge, so that it is difficult to fasten our boats to the docks which we have built for them.

2nd. The wide strip of muddy, boggy land, between the water edge and the hard ground extending over several thousand acres of land, being suddenly brought out to the heat of the sun, creates a malarious, unwholesome condition of the atmosphere about our homes.

3rd. Many of us derive profit in keeping hunting and fishing parties during the fall season of each year, but this occupation is very seriously injured by the action of the Indian Ford Water company in drawing down the water of the lake.

4th. The shores of our farms, lots and pleasure grounds adjoining the lake, would be pleasant, beautiful and useful if they were permitted to remain on the uniform hard shore line instead of being suddenly changed by drawing the water away from them.

5th. We purchased our farms, homesteads, hotel property, pleasure grounds and summer resorts for the purpose of having and enjoying the lake, and for the benefit derived from being near and living upon a useful and profitable body of water. We maintain that our rights in this lake as riparian owners, that our good health and comfort and the good health of our families and guests should not be ignored by parties who seek to transform the lake into a reservoir for supplying mills and factories distant from lake and in another state.

GOSSIP OF THE STATE

Hog cholera has taken root in La Crosse county.

A SAUK county school m'arn killed a couple of coons with a rifle.

RACINE county officers raided a barn fight and arrested two Chicago pugilists.

ONLY two non-residents have as yet applied to the secretary of state for licenses to hunt deer in the state.

RUDOLPH SCHMIDTKEUNZ of Appleton, had one hand shattered and an eye put out by the accidental discharge of his gun while hunting.

JOHN OLDFIELD, a farmer living near Elroy, was found hanging in his granary. He had been having considerable business trouble, and his wife died a short time ago.

ANNIE BURKERT of Racine, who it was feared had drowned herself in the lake, was found sleeping in the back yard. She said that she was afraid to go home because her parents were cruel to her.

THE Oshkosh grass twine factory is nearly ready to start. Eleven spinning machines and sixteen combing machines have been put in. Eleven looms, ten for weaving cotton bagging and one for carpets are on the road from the East.

SOME railroad company has agents looking over the possibilities of a road between Marinette and the Soo road along the Peshtigo river. The idea is to develop some of the water power on the Peshtigo river and a railroad is needed to make it available.

IN the circuit court at Monroe two cases were brought against the towns of Albany and Monticello for damages. They were dismissed on the grounds that the organization of both villages were defective, they having been organized under the old village laws.

ANTIGO will be in darkness no longer. The council has authorized a contract with the Antigo Electric Light company, by which the city is to have twenty-five arc lamps at an annual rental of \$84 per light. The city has not had any light for four months.

THE rival candidates for postmaster at West Bend have got together. As a compromise agreed to by them, Congressman Barney has recommended August Lindback for the appointment and Mr. Lindback will make Mrs. Byron Fairbanks, wife of the other candidate his assistant. Fairbanks was postmaster under Harrison.

THEODORE A. THOMAS, a member of a Milwaukee Gun club has been arrested at Fox Lake on a charge of assaulting ex-Mayor Kelly, of Randolph, who took Thomas' boat by mistake. An effort was made to settle the affair out of court but says he will prosecute Thomas to the full extent of the law. In addition to the charge of assault Kelly has brought suit for \$5,000 damages.

THERE is strong talk at West Superior of a combination of the flouring mills at the head of the lake. An attempt was made last year to effect such a combination but it fell through. It is said that there is more prospect of success this year. The object is to have one manager to fix the price of grain and flour for all of the mills. The Freeman mill of the West Superior is said to be the only one opposed to the scheme.

HELSON P. PETERSON, a Swedish farmer living near Columbus, set fire to his buildings and then committed suicide by hanging himself. His wife was working in a field near the house and when she saw the flames she went to investigate. For some reason she swooned while in the house and the timely arrival of the neighbors saved her from burning to death. Peterson was insane from domestic troubles.

Accused Chief Clerk Surrenders.

Mount Vernon, Ill., Oct. 18.—Ora Havill, former chief clerk of the Southern Illinois penitentiary at Chester, whose whereabouts has been unknown since the discovery of a \$6,000 shortage in his accounts, appeared suddenly and gave bond for from \$6,000 to \$10,000 for his appearance at the next term of the Randolph Circuit Court to answer to an indictment of embezzlement.

A PECULIAR REMEDY.

Something About the New Discovery for Curing Dyspepsia.

The Rev. F. I. Bell, a highly esteemed minister residing in Weedsport, Cayuga Co., N. Y., in a recent letter writes as follows: "There has never been anything that I have taken that has relieved the Dyspepsia from which I suffered for ten years except the new remedy called Stuart's Dyspepsia Tablets. Since taking them I have had no distress at all after eating and again after long years CAN SLEEP WELL."

Stuart's Dyspepsia Tablets is a remarkable remedy, not only because it is a certain cure for all forms of indigestion, but because it seems to act as thoroughly in old chronic cases of Dyspepsia as well as in mild attacks of indigestion or biliousness. A person has dyspepsia simply because the stomach is overworked, all it wants is a harmless, vegetable remedy to digest the food and thus give it the much needed rest.

This is the secret of the success of this peculiar remedy. No matter how weak or how much disordered the digestion may be, Stuart's Dyspepsia Tablets will digest the food whether the stomach works or not. New life and energy is given not only to the stomach but to every organ and nerve in the body. A trial of this splendid medicine will convince the most skeptical that Dyspepsia and all stomach troubles can be cured. The tablets are prepared by the Stuart Chemical Co., of Marshall, Mich., but so popular has the remedy become that Stuart's Dyspepsia Tablets can now be obtained at any drug store at 50 cents per package. Send for look on stomach diseases free.

ABNET IS GOING FAST

He Has Been Behind the Money But Twice This Season.

Abnet by Ambassador, owned by Henry Cheesman of Clinton Junction, and driven by George West, got second money in the 2:12 trot at Lexington, Thursday. She won the second and third heats in 2:10 and 2:11, lowering her record 1/2 seconds. Abnet is a five year old mare and now ranks second to Alix, the fastest mare ever owned in Wisconsin. She has been behind the money but once this season and has met some of the hardest fields ever started in the 2:12 class for trotters.

"Reddy" Gerrity made three starts in Lexington last week. He was behind the money with R. B. P. and Happy Bird but saved entrance money with Miss Finley.

Ether W., 2:14, for some unknown reason, did not start at Lexington during the meeting. She was entered in the 2:21 and 2:23 class trots.

Faustino, by Sidney, owned by Col. G. G. Pabst, lowered his record from 2:12 1/2 to 2:12 1/4 at Lexington last Thursday, against the clock.

Gerrity has been unlucky this season with his stable. The horses have all been going good, but were outclassed. Miss Finley who was such a good mare last season, was not in as fast company then as she was this season, and subsequently was behind the money in a number of races. R. B. P., 2:09 1/2, was not started until the latter part of August, but it is evident that he has reached his limit in seasons gone by. One thing is certain, however, and that is if Gerrity cannot make the horses win, it would be a difficult matter for other drivers to do so, as Gerrity is without a doubt the best driver in Wisconsin, and as good as any in the country. He carried Miss Finley's record this season to 2:09 1/2. Kinging Bella, 2:13, was another horse he started to campaign, but he had to ship him home, as he could not win anything.

HIS WAY IS BEST.

EMMA P. VEEDER.

Dear Lord we think! oh give us drink!
And in the dawning of the day,
We stop, and from the waters' brink
We quaff a draught, and turn away.

Oh sweet the draught! oh fair the day!
Our faith leads thro' a sunny way,
We find the world so full of song,
We wander far, we walk so long,
That deep around the shadows fall,
And night has wrapped us in its pall.

Dear Lord! oh yes, we need him now,
Alone, afraid, we call again,
He hears and answers soft and low
"I'm here, my child, thy grief I know."

Then close we creep where we may feel
The tender touch of His dear hand,
And He in accents tender, sweet,
Shows us a path for wandering feet.

He naught can give we will not bear,
He loves us so, our own dear Lord,
We'll walk through all our lives with Him,
Honor His name, obey His word.

And then He would our promise prove,
And from its soft, and downy nest,
He takes our birdling, our beloved,
Oh mother hearts you know the rest.

Once more across our threshold came,
An angel of relentless men,
We barred and bolted every door,
But still 'twas there, the angel Pain.

Deep, deep again, the cup we drain,
The cup our lips woad gladly shun,
And through the blindness of our tears,
We hear that voice—not heard in years.

Stumbling, weary, burdened sore,
We totter to the very brink,
Behind us years of wasted life,
An awful darkness on before.

Then thro' the silence comes the Voice,
The Voice we have so longed to hear;
"Arise! Lift up that cross and come—
Thy long deserted Lord draws near."

And just before us on the ground
A spray of lily blooms we see,
Each blossom holds a long lost face,
A face so dear, so sweet to me.

Then through the shadow comes a gleam
Of hope—so long forgot,
And toward the east we turn our eyes
To watch for Him who carries not.

"I come my child to ease the pain,
Lean hard upon thy Master's breast,
I've loved thee, watched, nor once forgot
Through all these years, that thou wert MINE."

And in our heart there dawned a peace
Before unknown, ne'er understood,
And clasping close our Father's hand
We can but kneel at His dear feet
And say thro' rain of happy tears—
"Thy way is best, Thy service sweet."

FINE ROCK COUNTY HERD

Jameson & Green Have Established Themselves as Jersey Breeders.

Jameson & Green, of Magnolia, this county have laid the foundation for a combination herd. They have purchased Brown Bessie's King 45901, a son of Toltec's Signal 27501 and Tessel 75359—record 20 lbs 4 oz—the only daughter of the matchless Brown Bessie, the champion butter cow of this World's Fair. This bull is solid color, black tongue and switch, lengthy and deep, without coarseness—a typical combination and full brother to Brown Bessie's grandson, 34891, owned by G. E. Coleman, Perry Center, N. Y.

This firm also purchased five of my very best cows, all of them daughters of Toltec's Signal and all of them daughters of combination dams, viz: Motion 95591; Biana 95592; Lorrilla 85505;—record 16 lbs. 8 oz.—Patria's Oonan 103065 and Lady Lyndon Lee 105617, all of them in calf to Recorder, son of Brown Bessie. Every one of them are about perfect and well calculated for business and the show yard as well. A better foundation for a good combination herd never left my farm and I will miss them. Messrs. J. & G. wanted the very best and were willing to pay for them. Lorrilla first saw the light of day at Jackson Park. She is a daughter of Lorrilla 33750—one of the famous twenty-five defenders that made up the ever memorable Columbian dairy at the World's fair, and is owned by Charles A. Sweet, Buffalo, N. Y.

Toltec's Signal was in use in my herd several seasons—now owned by H. A. Egerton, Footville, Wisconsin. These cows as well as the bull represent closely the blood of Combination, Tormentor and Signal—a trio of great sires rarely found in the same calf.

How many Jersey breeders are aware that Combination made his record in four seasons. Richardson Bros purchased him in November, 1884—not even one cow having a record was ever bred by him. It is doubtful if there was a Jersey cow with a record in the state of Iowa while old Combination was there. He is credited with seventy registered daughters, twenty-five of which have records from 14 to 25 pounds, and he is grand sire of Brown Bessie and Merry Maiden, the only cows that withstood successfully the assaults of all comers at the fair and churn at Jackson Park.

His son, Diploma, now has thirty-three daughters with records including Merry Maiden, and he has several other sons that have several daughters each with records. Does not old Combination stand today before the dairymen world with a matchless record as compared with any bull living or dead?

DUCKS THIN THIS FALL

Koshkonong's Claim on Canvasbacks Disputed by a Sentinel Writer

A favorite theory of local hunters is thus set forth in a letter to the Milwaukee Evening Wisconsin:

"Koshkonong is the only canvas back field in the United States west of the Alleghenies. When they leave Koshkonong they go direct to Chesapeake Bay. There is miles of wild celery at Koshkonong and the lake bottom is sandy, something very rare.

The Sentinel takes exception of this and says: "On the contrary Koshkonong is not the only canvasback field in the United States west of the Alleghenies. At Puckaway large flocks of that species feed every fall on the big beds of wild celery growing in the upper lake, and at the Makawia club in Illinois great quantities of these birds are killed every year. The statement that the canvasbacks fly direct from Koshkonong to Chesapeake bay is merely conjecture and the other errors must be evident to the reader."

The Sentinel says that the birds killed on Puckaway lake this fall are pump and fat, while those received from most of the other lakes in Wisconsin are scrawny and tough, and almost unfit for food. This announcement is based on information received from sportsmen who shot canvasbacks on both lakes this month, and the 200 birds received from Milwaukee for sale were shipped from Koshkonong to a prominent Milwaukee dealer, who stated in response to an inquiry that almost the entire quantity was unfit for table use.

Terrible Deficiency of Wheat Abroad.

America to Supply the World

Late advices from Washington, based on reports of governments, report that the shortage in the world's wheat crop will reach the starvation figure of 112,000,000 bushels. America is relied upon to supply the deficiency out of our grand product of 460,000,000. This deficiency can, with some aid of the rye and corn crop, be made up, but who could supply the sick and debilitated deficiency of Hostetter's Stomach Bitters. There is happily always a supply of that promptly helpful medicine adequate to the relief of the dyspeptic, the constipated, the bilious and the rheumatic. It will, without interruption, continue to build up the weak, to protect the denizens of malarial scourge localities from chills and fever and kindred disorders, and to counteract a tendency to torpidity of the kidneys and bladder which, if disregarded, is speedy subversive of their organic health. Not only does it renew digestion, but also appetite and sleep.

THIS DAY IN HISTORY

1606—Edward Winslow, one of the Mayflower party and three times governor of Plymouth colony, was born near Worcester, England; died at sea 1683.
1663—Francis of Savoy, better known as Prince Eugene, imperial general and colleague of Marlborough, was born at Paris.
1744—Sarah Jennings (Churchill), long famous as the Duchess of Marlborough, died.
1767—Rene Antoine de Reaumur, practical philosopher and inventor of a thermometer, died; born Feb. 28, 1683.
1831—Helen Maria Fiske (Hunt-Jackson), American author known as Helen Hunt and chiefly by the pen name "H.H.," born at Amherst, Mass.; died 1883.
1865—Lord Palmerston, British premier, died.
1867—Alaska became a territory in the United States.
1893—Lucy Stone Blackwell, one of the original and most noted woman suffrage advocates, died at Dorchester, Mass.; born in Massachusetts 1818.
1896—Horace Rublee, distinguished Wisconsin journalist, died in Milwaukee; born 1833.

NOT A PARTISAN COURT.

The appointment of Justice Field's successor will leave the supreme court republican six to three. This will have no significance from a party point of view however. Partisanship has very little influence in dictating the attitude of justices of the supreme court towards the great questions which come before them. Republican justices have rendered decisions in the past twenty five years defeating, in some degree, the republicans' purpose in the reconstruction legislation yet the republican party promptly acquiesced in every instance. The part which republican justices took in nullifying the civil rights act and in interpreting the fourteenth and fifteenth amendments adversely to the republican contention prove that, in most cases, the partisan affiliations of men count for very little after they go to the supreme bench.

The supreme court possesses greater powers than any judicial tribunal in any other nation in the world, yet it seldom comes in conflict with either the executive or the legislative department of the government. The reason, in all probability, is that the court has nothing to do with the wisdom, expediency or morality of a law of congress or an act of the executive, but only with its legality. "Where the law is not prohibited, and is really calculated to effect any of the objects intrusted to the government," said Chief Justice Marshall in his decision in the case of McCulloch vs. Maryland, in 1819, "to undertake here to inquire into the degree of its necessity would be to pass the line which circumscribes the judicial department, and to tread on legislative ground. This court disclaims all pretensions to such a power." This principle has been constantly observed by the court from that day to this.

The state gains a valuable official in Professor C. O. Meier, who has accepted the superintendency of the Wausesha Industrial school. Professor Meier is a man of great executive ability, and is recognized, moreover, as one of the best informed men in the state on penology and kindred subjects.

The thing that seems to give democratic critics the most trouble, is that whenever anything wrong is found in any of the state institutions the board of control lose no time in applying a remedy.

In deciding to go all the way from Washington to Canton to cast his vote President McKinley sets an example that should not be lost upon Ohio republicans.

WIFE DIDN'T SIGN CHATTLE MORTGAGE

INTERESTING CASE BEFORE
JUSTICE RICHARDSON.

Suit of Mrs. William Roberts Brings Out the Fact That There Were Two Mortgages on the Same Property—Charges Relating to Bad Language.

Mrs. William Roberts won her suit against I. J. Fletcher. She was given a verdict of \$25 and costs, the costs amounting to about \$20.

The case involved two chattel mortgages. The plaintiff and the defendant each held a mortgage on certain crops of John T. Powell. The defendant's mortgage was later than the plaintiff's but he claimed the plaintiff's mortgage to be void because the property was exempt and the mortgage was not signed by Powell's wife. Justice Richardson held most of the property to be exempt and held that the mortgage as to such property was void because not signed by Powell's wife. She had been committed to the Mendota hospital but was cured and ready to return at the time of making the mortgage. She was therefore to be considered as a member of his family. Bad Language Made Trouble.

Mrs. Amelia Brummond pleaded not guilty this morning to the charge of using language calculated to provoke Mrs. Constine Walkley, her neighbor to deeds of violence. After she had entered her plea a jury of six was drawn the venire being returnable Saturday at nine o'clock in the municipal court. Mrs. Brummond and Mrs. Walkley live in the town of Janesville and Mrs. Walkley avers that her neighbor said:

"You are a thief." "You stole turkeys."

All of which is held to be against the peace and dignity of the state of Wisconsin as well as being very unneighborly.

Sued on a Meat Bill.

In the case of James McGowan against John Powell Justice Patten found for the plaintiff. McGowan sued Powell to recover a meat bill of \$12. Last spring McGowan levied on Powell's barley to collect this same bill but Powell then claimed that his barley was exempt by law. Justice Patten had a different idea and Powell is now obliged to settle a much larger bill than he expected. E. D. McGowan appeared for the plaintiff and Sutherland & Nolan represented the defendant.

HAMMAS FOUND GUILTY

Attorney Pierce Makes Formal Objection to the Action of the Jury

After six hours' deliberation the Hammass jury brought in a verdict of guilty, at 9:15 Saturday night. The verdict also stated that the defendant was on July 12, 1890, sentenced to three years in the state prison and that the sentence had never been reversed.

Attorney Pierce said: "Your honor, I wish to make a motion for a new trial on the grounds:

"First—That the jury was improperly empaneled, improperly sworn and was not a fair and impartial jury.

"Second—That the evidence shows no venue or offense committed in this county.

"Third—On newly discovered evidence.

"Fourth—On the misconduct and improper conduct of the jury, both before and after the trial.

Examination brought out the fact that food, cigars and gum were supplied to the jury while in the jury room.

SEXTON MARKS 90TH YEAR

Janesville Blacksmith Is Probably the Oldest in the State.

Charles Sexton in all probability the oldest blacksmith in the state will celebrate his ninetieth birthday tomorrow. Mr. Sexton who resides at the corner of Ravine and Jackson streets was born in Lewis county, New York, and came to Janesville in July 1854. He learned the blacksmith trade with his father when seven years of age. Mr. Sexton's industry has not kept him from taking a lively interest in other things. For years he was an active and aggressive democrat but his sympathy with the farmers led him to become of the first in Rock county to ally himself with the populist movement.

DR. BEDFORD GETS \$7,600

Cash Promised By His Mother Drew Him Back to England.

When Dr. George F. Bedford left Janesville in a hurry last Thursday afternoon for England he had an object in view. The doctor is about to lay his hands on \$7,600 in cash. At least, this is what he says a letter written Saturday at a hotel in the Chicago stock yards.

The doctor wrote that he regretted leaving Janesville in such a hurry without saying good bye to his friends but after giving the matter considerable thought he concluded it to be the wisest move.

Dr. Bedford has a mother in England who, it is said, is possessed of a small fortune. Since her son came to America she has longed to see him, and has repeatedly written asking him to return. In her last letter she said that \$7,600 awaited him if he returned at once.

The doctor says that this accounts for his sudden departure.

Milton Junction People Say They Do Not Believe He is Guilty and Point Out Facts That Help To Exonerate Him—His Brother At the Jail.

George McAdams, of Chicago, a brother of Fred McAdams who is in jail charged with the murder of William Ewing, was in town Sunday and spent an hour at the jail. His visit did much to cheer the prisoner.

Milton people are not inclined to attach full credence to the report that Ewing was the man found dead in Newville. A Gazette representative spent Saturday night at Milton and Milton Junction and interviewed the majority of the business men in the two places. They declared almost without exception that McAdams would be the last man in the world to kill a man in cold blood and agreed that he was not in any degree of a quarrelsome disposition.

Great stress is laid on the fact that an offensive odor was noticed coming from the vicinity of the three basswood trees early in May and that the body found there July 6 bore every indication of having been exposed to the weather for at least two months. Ewing did not leave Milton Junction until July 14 and then did not take his valise with him. He left trunk, valise and under clothing in his room at Mrs. Fulton's where they are still.

Several from Milton Junction visited McAdams at the jail yesterday and today. He assured them that his innocence would be proven at the examination next Thursday.

Mr. and Mrs. Sydney Hurd who made the complaint in the case were married by Rev. A. H. Barrington, June 12 of this year.

According to Mrs. Hurd's statement, the men who picked up her and her mother on the road to Newville, June 15, 1895, were McAdams, Ewing, Fred Kiley, a fireman living in Chicago, and a man whose name is not yet made public. It is understood that she attaches no responsibility to anybody but McAdams. Mrs. Hurd's mother is Mrs. Page of Newville.

KOSHKONONG BOYS ARRESTED

Deputy Warden Charges Them With Violation of Game Law.

Two young men were arrested at Lake Koshkonong by a Dane county deputy game warden who charged them with shooting from a "blind" placed in clear water. The young men, who live near the lake, deny the charge. Hunters along the lake were up in arms yesterday over the arrest which they declared was an outrage. Game wardens this year are on the alert for all offenders.

Bundy Attempted Suicide in Elkhorn Jail Saturday Night.

Telephone messages from Darien this afternoon stated that Isaac Saxton, the hotel man, who was shot by Joseph Bundy is still alive. In fact, he is said to have regained consciousness and to be somewhat stronger.

Bundy is said to have become very penitent. While alone in his cell at Elkhorn Saturday at 9 o'clock he pulled out a knife and tried to cut his throat. His effort at suicide failed.

GONE TO THE HOME BEYOND

Mrs. Jane Helms.

Mrs. Jane Helms wife of the late Oliver Helms died Saturday at the home of her son John in the town of Rock. She was eighty-one years of age last August and death came to her without the accompaniment of illness; rather she seemed to fade quietly and peacefully away. She left four children, J. G. Helms and Annie Helms of the town of Rock, Mrs. Edna Wiggins of Footville and W. E. Helms of Madison.

Mrs. Helms and her husband were old settlers of Rock county, coming here in 1846. She was a member of the Presbyterian church of this city. Rev. E. H. Pence conducted the funeral services which were held Sunday afternoon at 2 p. m. at the home. The pall bearers were Abel Barlow, George Ashby, Mark Fitch and Solomon Spoon. The interment was in the Grove cemetery in the town of Center.

George Ehrlinger.

George Ehrlinger Jr. died this morning at 3 o'clock at his home in Hanover, aged 36 years, 11 months.

RUNAWAY ON JACKSON STREET

Horse Falls on Car Track and Smashes the Buggy

A horse driven by Miss Helen and Robert Menzies of the town of Harmony, became frightened on South Jackson street and ran away. At the corner of Jackson and Milwaukee streets he fell on the car track, wrecking the buggy and throwing out the occupants. They were slightly bruised. The horse broke away from the buggy and escaped uninjured.

THEY CLAIM TO BE THE OLDEST TWINS

MRS. DAVID NOGGLE AND MRS. H. H. JOHNSON.

Well Known Janesville Pioneer, Who Was Born in 1815, Singled Out by A Chicago Paper as One of The Oldest Pair of Living Twins

The claim of the Newell brothers of Missouri, that they are the oldest pair of twins in the country will not hold. Mrs. H. H. Johnson, nee of Kankakee, Ill., and now of Omaha, Neb., and Mrs. David Noggle of Janesville, are one month older. These ladies are the twin children—Polly M. and Anna M.—of Benjamin and Eunice Mosher Lewis, and were born at Bristol, N. Y., May 19, 1815. They were the youngest of fifteen children. The twins went to Milao, Ohio, when about seventeen, married there, and in 1837, Mrs. Noggle came to the wilds of Wisconsin to live the life of a pioneer. The Chicago Times Herald today says:

"She and her husband settled at Beloit. Mr. Noggle was the first postmaster of that city. He was a lawyer and afterwards appointed chief justice of Idaho by President Grant. His health compelled him to return to Wisconsin, where he died in 1878, at the house of his son in law, Congressman Charles G. Williams. Mrs. Noggle is a woman of native ability and can tell many interesting tales of early life in Wisconsin. She is the mother of seven children, who, with her, are members of the Episcopal church. She is an excellent chess and whist player. Mrs. Johnson, later in life, went with her husband to Kankakee, Ill. She was a leader in Kankakee church work until she went to reside with her daughter, Mrs. John Dale of Omaha. The sisters are both in full possession of their faculties and are as active as women of 65."

NEW STYLES.

High Collars—Plaited Skirts Again—Something About Trimmings.

Sleeves are now very tight, defining the form of the arm very clearly, all the fullness, which is at most very slight, being confined to the top at the shoulder. An epaulet or sleeve cap of some kind is often seen, although it is not by any means essential. Sometimes there is some sort of drapery or trimming at the top, showing a degree of amplitude, but nothing really large is used. At the wrist the sleeve is decorated in such a way as to keep its close effect, bands of flat trimming, cuffs and similar arrangements being adopted.

TAFFETA GOWN.

The collars of outer garments are very tall and flaring, mounting to the ears and quite concealing the neck.

There is no decided change with regard to skirts. They are of comparatively moderate dimensions—that is, from 4½ to 5 yards in circumference—are close and plain in front and over the hips, but rather full and flaring at the back. The haircloth facing is narrow, not more than a quarter of a yard deep, and is sometimes omitted altogether when the material is stiff and the linings are substantial. Moreen makes an excellent lining for winter skirts, but should not be carried to the very top, as it is too rigid to adapt itself smoothly to the form of the hips. When moreen is used, haircloth is not necessary. It comes in all colors, as well as black, although the latter is the most serviceable.

The picture shows a costume of pink and white glaze taffeta, having tiny stripes. The skirt is trimmed around the foot with points of guipure alternating with knots of pink satin. The blouse bodice is draped under epaulets embroidered with gold and opens in front over a vest of guipure. The close sleeves are trimmed at the top with points of guipure and puffs of pink satin. Points of guipure form full epaulets, and small guipure points are placed at the wrists. The collar and belt are of pink satin.

WINTER NOTES.

Silks For Little Girls—How to Choose Decorative Plants.

Faille and bengaline are the silks employed for the wear of little girls for elaborate occasions. The favorite wrap for them is long and straight, of faille or velvet trimmed with fur. Two or three

CLOTH JACKET.

small, superimposed capes or large collars are placed over the shoulders and are bordered with fur, or the coat is mounted in large plaits on a yoke.

The frocks of very little children are not as long as they have been for the last few years. The Mother Hubbard style is not abandoned, but the skirt is cut somewhat shorter, which is more convenient for active little people. There are also gowns which sit closer to the figure and are belted with a sash which is tied at the back. The preferred materials are cloth, cashmere, velvet and bengaline, and ribbon bows being used as trimming. Flowers and growing plants are charming decorations for the living apartments and give an aspect of freshness and refinement to even a shabby room. Cut flowers are expensive luxuries in cold weather, and flowering plants do not blossom continually and when out of bloom are often not particularly attractive. Foliage plants of sturdy varieties are the most satisfactory for ordinary rooms, as they are pleasing in appearance all the time, if they are well cared for. There are several kinds of begonias which grow admirably in the house, becoming large and bushy in a short time. Common palms, india rubber plants, sword ferns and even ordinary cannas are very effective and are not at all tender or troublesome. Nearly all smooth leaved plants are the better for having their foliage sponged with cold water occasionally. This removes the dust and improves the color.

The illustration given today shows a jacket of pearl gray cloth, close fitting at the back and straight in front. It has three pelorines, the lower two being of pearl gray cloth, the upper one of white cloth embroidered with steel and black. The fronts of the jacket are rounded and a band of black velvet borders the entire garment. The collar and cuffs are also covered with an application of black velvet. The accompanying hat is of pearl gray felt, trimmed with black velvet and gray quills.

WHAT THE LAW DECIDES.

An apportionment between life tenants and remaindermen is allowed in *Greene vs. Greene* (R. I.), 35 L. R. A. 790, where a portion of a trust fund is recovered after the loss of a part of it, so as to make an allowance to the life tenants for the loss of income during the time the estate was in course of settlement. The amount apportionable to the life tenants for such loss of income is held to be the interest on the sum which at interest will produce the amount recovered.

The time when a municipal debt comes into existence, and not the time when it is due, is held, in *Laporte vs. Gamewell Fire Alarm Telegraph Company* (Ind.), 35 L. R. A. 686, to be the time which must be considered in applying the rule of limitation of indebtedness. If the city has already reached the limit a contract payable in installments must be one in which the current revenues will pay as fast as the indebtedness comes into existence, together with other expenses to which the city is liable.

The duty of furnishing a separate passenger train for passengers only, and not for freight and passengers together, is held, in *people ex rel. Cantrell vs. St. Louis, A. & T. H. R. Co.* (Ill.), 35 L. R. A. 656, to be implied in the duty of a railroad company to furnish necessary rolling stock and equipment for the suitable operation of the road. The sufficiency of earnings to justify the expense of such a train is held to depend on the earnings of the entire system, and not of the mere branch over which the train is to run.

In determining the taxable value of a railroad, it is held, in *state vs. Virginia & T. R. Co.* (Nev.), 35 L. R. A. 759, that the earning capacity is the main consideration, though perhaps not the only one, where the road could be replaced for less than its original cost. It is also held that prospective improvements to affect the value must be more than possibilities and so certain that a business man purchasing the road would take them into consideration. Also that the cost of replacing a worn-out wooden bridge is properly charged to expense account in determining the income as an element of a tax assessment and that if a steel bridge is made instead only the difference between the two should be charged to construction account.

A photograph of the scene of an accident is held, in *Dederichs vs. Salt Lake City R. Co.* (Utah), 35 L. R. A. 802, to be admissible in evidence to aid the understanding of the facts. But in *Hampton vs. Norfolk & W. R. Co.* (N. C.), 35 L. R. A. 808, a photograph of a place is held inadmissible on the question of the existence or non-existence of a path at a certain time if the picture was taken two years later, after the situation had changed, and a map made near the time was already in evidence. With these cases are reviewed the other authorities on the use of photographs in evidence.

ENGLAND'S GARDEN.

The little Isle of Wight, which is called the garden of England, has one of the highest ladies of the land as its governor, inasmuch as Princess Beatrice, daughter of the Queen of England, is the resident governor and takes as much interest in the affairs of the tiny domain as any man ever has who occupied the same position.

Women rule in the land. The station is kept by a woman—Whippingham station—and it is the boast of the capable elderly stationmistress that no man helps her sell tickets or care for the tiny and picturesque station. From the station a charming country road winds along a mile to the royal village of Whippingham which is rustic but well-kept and within the Osborne domain. The postoffice is very quaint with its thatched Gothic roof and whatever letters are waiting to be called for are shown in the window like merchandise. A woman presides over this and to another woman is intrusted the care of the village church.

The chapel contains a royal pew, for when the queen is at Osborne she always attends church. Opposite her pew is the marble memorial to Princess Beatrice's husband. Whippingham enjoys the distinction of being the only parish church at which the marriage of a child of the reigning monarch has taken place.

Very interesting are the queen's almshouses, a long row of cottages, connected into a rambling building covered with ivy, picturesque and pretty. Here live the widows of the Osborne estate and several old couples whose days of toil are ended. One particularly bright couple are Mr. and Mrs. Jackman—having driven a plow before the estate was purchased by the queen and having passed into her service along with the property.

To the Klondyke in Balloons.

Dr. Rufus G. Wells, whose home is at No. 1020 North Sixteenth street, St. Louis, is another of the many victims of the Alaska gold fever. He has begun work on a gigantic balloon in which he proposes to start for the Klondyke region next spring. His balloon will consist of a cigar-shaped bag filled with gas, sustaining a basket and propeller. The gas will be sufficient to sustain the weight of fifty men and their necessary baggage. Dr. Wells is offering round trip tickets on his airship for \$300.

Dr. Wells claims to be the greatest aeronaut of the age. He tells marvelous stories of his exploits—how he once crossed the Appennines from Rome in seven hours, and another time crossed the Indian Ocean. He says that he can go around the world in thirty days, and consequently such a little matter as a trip to Klondyke is hardly worth talking about.

Dr. James Charles, of Richmond, Ind., is another medical man who has devoted much attention to aerial navigation. As a result of his thinking he has applied for a patent on an airship which is designed to fly like a bird, without the use of gas or other buoyant matter. He has constructed a tin model of a machine something like Langley's flying machine, but fitted with various propelling wheels which can be turned so that they will exert either a lifting or a horizontal power that will move the machine forward. Dr. Charles is organizing a stock company to build his machines and contemplates a trip through the air to Alaska in the spring.

ELASTIC STARCH has been before the people of the United States for twenty-three years and is without a peer in the history of the Nineteenth Century. Last year it sold reached the unprecedented number of twenty million packages. It is prepared upon scientific principles by men who have had years of practical experience in fancy laundrying. It makes ironing easy, restores old summer dresses to their natural whiteness, and imparts to linen a beautiful and lasting finish. It is the only starch manufactured that is perfectly harmless, containing neither arsenic, alum, or any other substance injurious to linen, and can be used even as a baby powder.

A Little More Cost Brings Big Profits.

The addressing, folding, inclosing, sealing and stamping of five thousand circulars, with postage, will cost at least \$65, whether the circular is good or bad. Notwithstanding this fixed charge, some strive to save a dollar or two on the cost of printing, although the goods advertised are to be judged by the character of the printing, just as a house is judged by the character of its salesmen. Good printing costs but little more, and that "little more" brings greater returns than any other part of the cost. Order your printing where good work is assured.

THE WEATHER BUREAU!

The Musk Rat, the Goose Bone, and Corn Husk, All Predict Cold Weather.

It's here now. It's coming with more ferocity in a few days. A year ago this time we had snow. We may have it now. At any rate you want your Stove right now. No delay; you need it. You'll be surprised in an unkind way if you don't get it. Better get it right away and be comfortable.

All of them on the market from twenty-five to sixty years. The best makes the country produces--the Stoves a dealer could well feel proud of. Any of them capable of caring for your winter needs. The concerns who make these Stoves have millions of dollars invested. Their sales increase every year. It stands to reason then that prices must be low and quality very high. We are never undersold. With the greatest of all Stove stocks we can certainly make the buying part an object.

Minor details, as well as the most important, are carefully looked after in the construction of Jewel Stoves and Ranges. It is an aggregation of perfect features, small and large, that makes the perfect stove. This fairly accounts for the high merit of the Jewels. In point of efficiency, convenience, durability, design and finish, they outrank all other makes. Ask the dealer for them, and look for the above trade mark.

**It's
Dead
Easy...**

To talk strongly on STOVE SALES and Stove qualities, but it's much harder to back up the windy assertions. The most convincing argument is personal inspection. Conclusions are easily drawn. A glance at our Stove department settles every claim we make. We satisfy every sized purse on Stoves. We guarantee you satisfaction on every purchase. Thirty years we've been here; we'll be here some time yet. We make good anything we say.

**The Record Will Be
Shattered.**

In Stove selling by us this season. The high mark of success is being reached. Plenty of second hand Stove bargains. Stoves for all purposes, heating and cooking.
